2:00 pm **Numerology 101**

Joy Andreasen

Numerology is the study of numbers and how the particular vibration and meaning of numbers can be an indicator of certain personality traits, life purpose, challenging circumstances or themes. These indicators can show up based on what numbers are significant on the date of your birth, your name, even the house number of the address where you live or work! Like astrology, numerology is like a GPS, giving you information which you are free to accept or reject! In this workshop, you will learn some basic concepts of numerology based on my personal relationship with the modality and how I use it in my work as a psychic, medium, and energy healer.
