Inherited or Not...

MARY CHARLES BLAKEBROUGH

In your lives, have you had shocks or traumas? If yes, your heart may have protected itself by storing strong emotions in 'capsules' clustered around your heart in a Heart Wall. If your ancestors experienced shocks or traumas, you may have inherited their stored energy capsules as well. This Heart Wall could be keeping your body from healing itself. Come and learn more from Mary Charles about what you can do to help facilitate healing.
